5 FACTORS «Why Securex Uzbekistan»?

1. Increasing number of investment projects in various industrial fields

INVESTMENT

2. Development and growth of the tourism sector and transit corridors, which in turn created the need for opening new border checkpoints, and construction of new and upgrading the existing airports

UZBEKISTAN

3. Rapid development of heavy industry and the associated risks of man-made emergencies

4. Digitalization. Digital technologies are actively introduced for the transition to automated systems for monitoring, analysis, warning and taking timely measures to prevent and avoid various negative situations, as well as for development of e-commerce, electronic document management, online sales and purchases, which requires certain security standards, personal data protection and combating cyber-attacks.

5. Development of situational centers requires appropriate solutions, equipment and systems.
