

16th INTERNATIONAL EXHIBITION

INTEGRATED SECURITY

11-13 NOVEMBER 2025

UZEXPOCENTRE, TASHKENT

Securex Uzbekistan is the largest exhibition of technical means of protection and equipment for security and fire protection in Uzbekistan. It is a prestigious business platform for exhibiting the latest technical means of security, as well as a space for fruitful dialogue between professionals, representatives of the state authorities, law enforcement agencies, industrial enterprises, businesses, and non-governmental security structures.

Foundation year: 2005

Status: International

PARTICIPANTS:

 **30** companies from the Republic of Belarus, China, Israel, Kazakhstan, Poland, Russia, Turkiye, and Uzbekistan

NUMBER OF VISITORS:

 **7 838**

INCLUDING PROFESSIONAL VISITORS:

 **5 806**

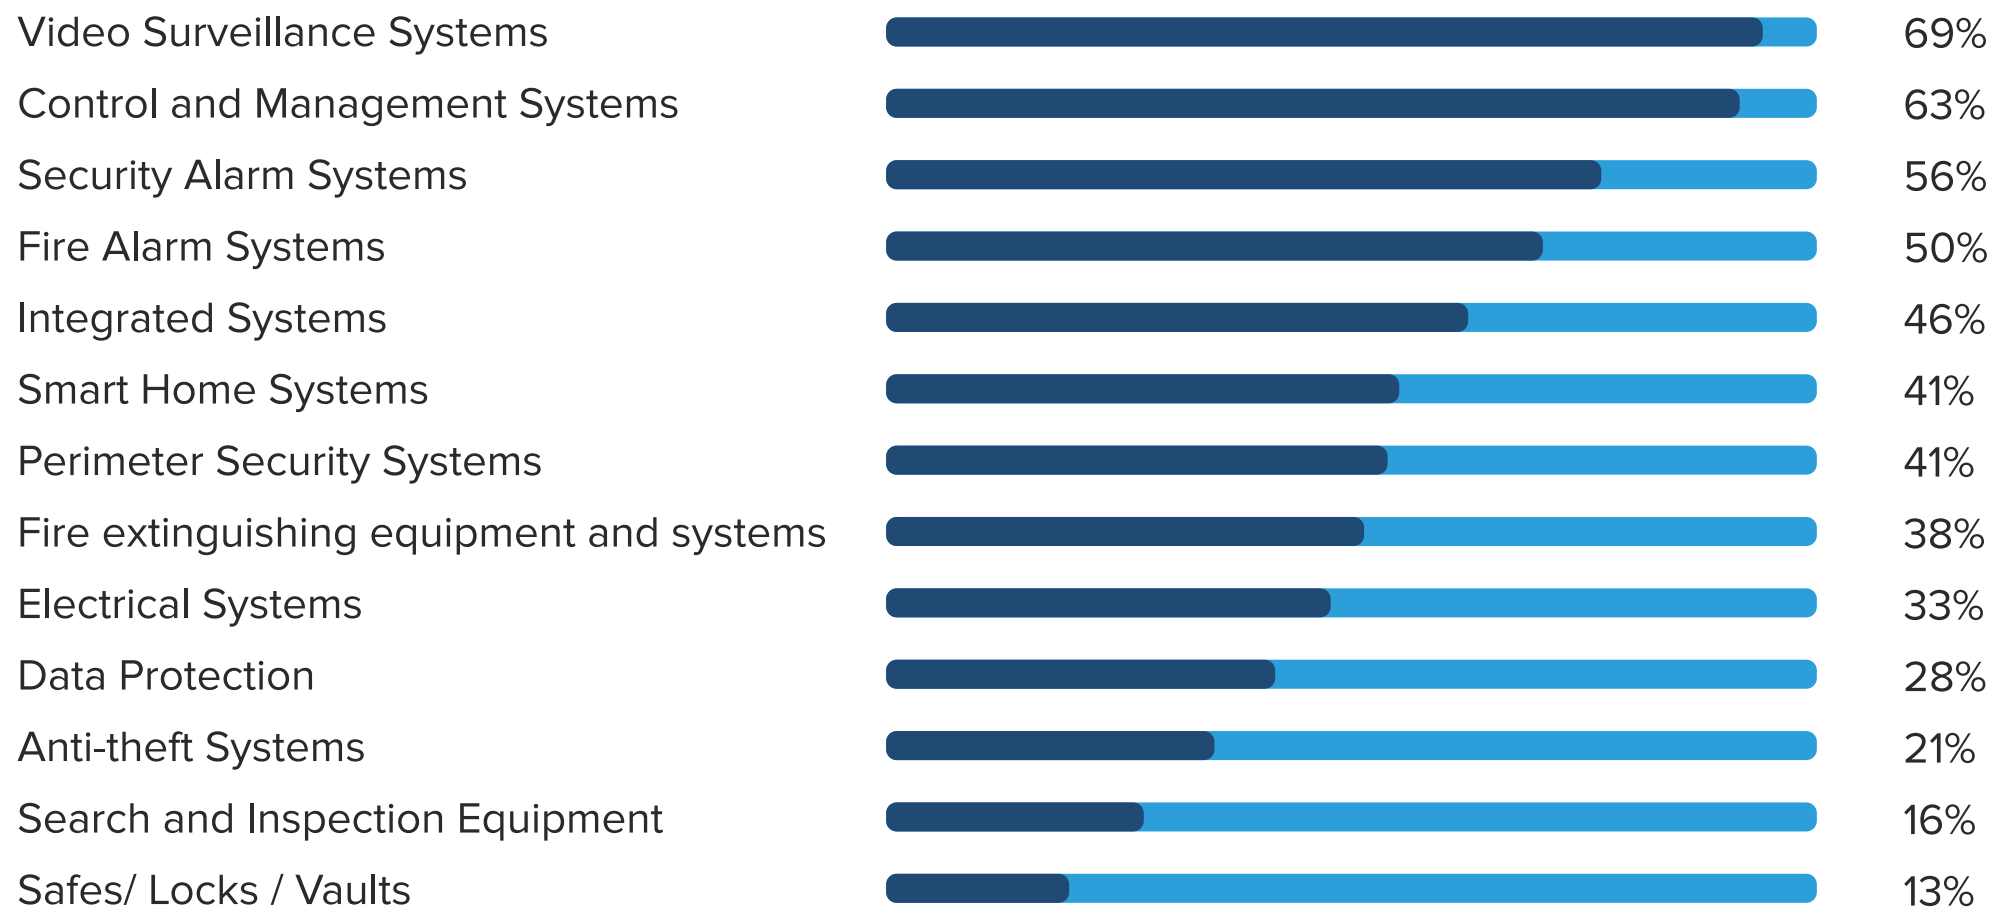

THE EXHIBITION IS SUPPORTED BY:

- The Ministry of Emergency Situations of the Republic of Uzbekistan
- the Ministry of Investment, Industry, and Trade of the Republic of Uzbekistan
- The Chamber of Commerce and Industry of the Republic of Uzbekistan
- The Inspectorate for Controlling Mining, Geological, and Industrial Safety under the Ministry of Mining and Geology of the Republic of Uzbekistan
- The Main Directorate for the Protection of the National Guard of the Republic of Uzbekistan
- The Chamber of Commerce and Industry of Tashkent city

PARTICIPANTS' PROFILE:

Domestic and foreign manufacturers, developers, and suppliers of technical means of protection, equipment and IT-solutions for security and fire protection.

THE NUMBER OF VISITORS INTERESTED IN PARTICULAR TYPES OF PRODUCTS

IMPORTANT SUCCESS FACTORS:

- Participation of recognised leaders and suppliers of security equipment and advanced technologies
- Support of key ministries and agencies
- Unique target audience from all over Central Asia
- With the growth of investment projects in oil and gas, medicine, energy and other industrial sectors, there is a growing need to organise security at facilities, in particular, the organisation of perimeter security, access control, data protection, fire safety, video surveillance, occupational safety, and much more
- Taking into account Uzbekistan's foreign policy of good-neighbourliness and development of transit corridors, as well as the development of the tourism sector, there has been a large increase in transit cargo and tourism. This, in turn, has created the need to open new border crossing points, build new ones, and re-equip existing airports with modern facilities and automated control and passage systems.

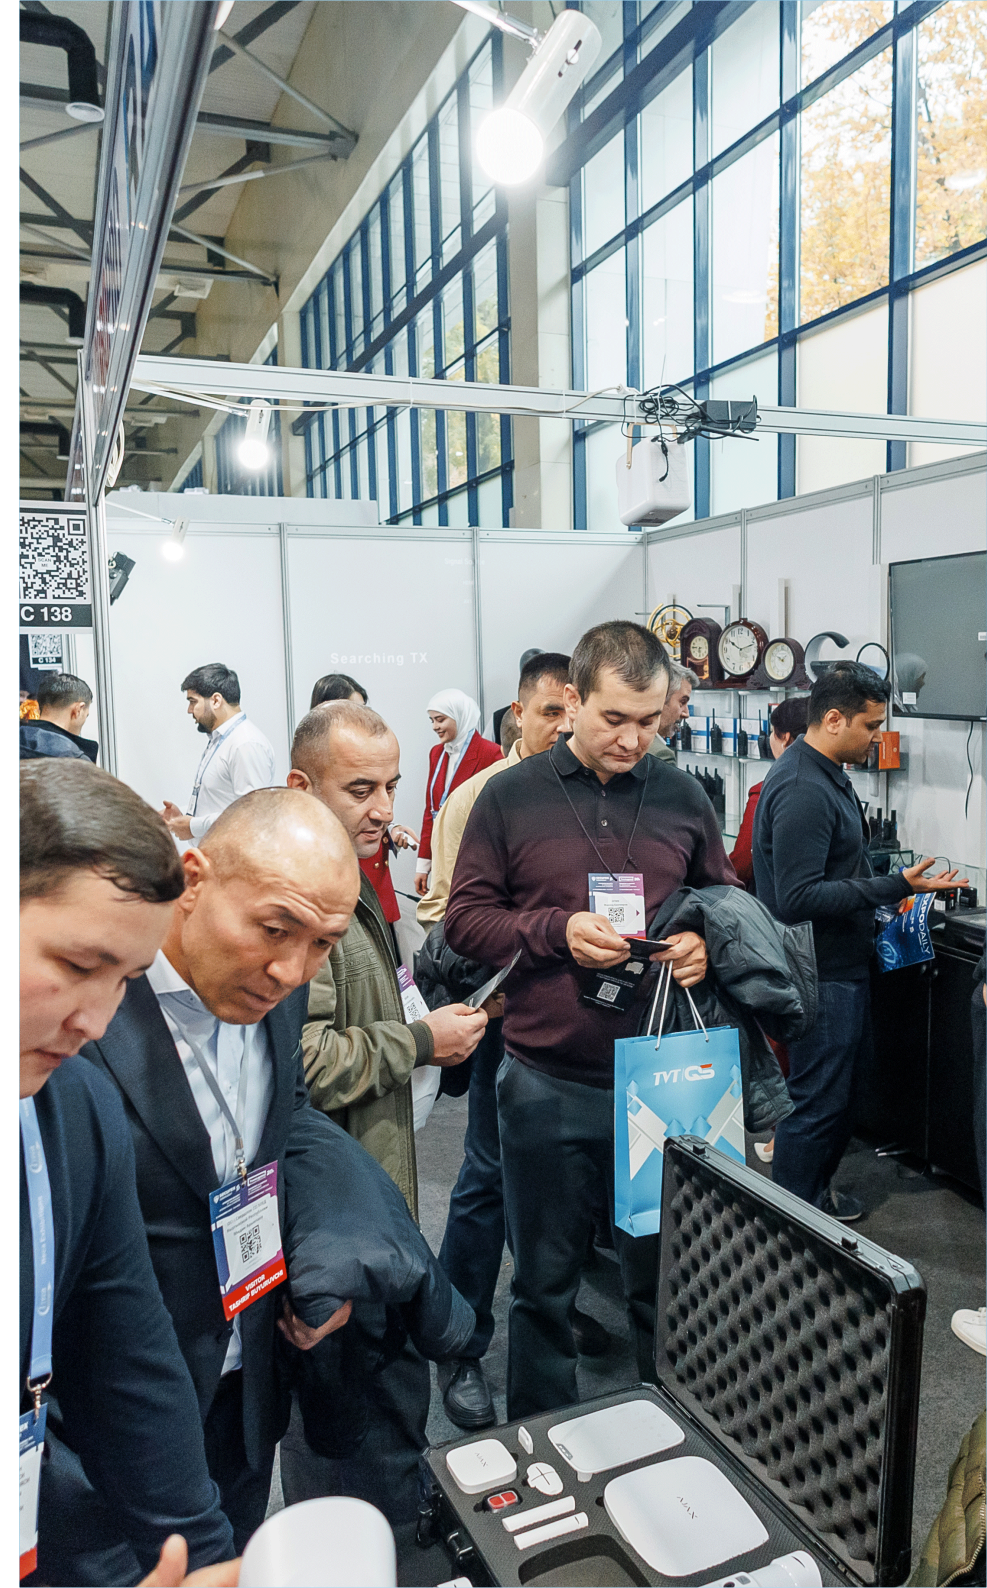

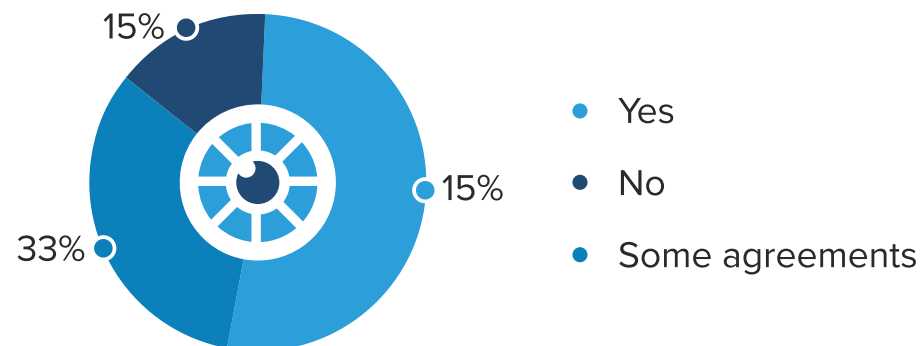

IMPORTANT SUCCESS FACTORS:

- Given the growth of the crime situation, there is a need to improve working methods and enhance the material and technical base of law enforcement agencies and individual security agencies for categorised facilities.
- The development of industrial facilities and urban infrastructures leads to the expansion of the use of digital technology and the transition to automated systems for monitoring, analysis, warning and taking timely measures to prevent and avoid various negative situations.
- The growth of the chemical industry, the increase in cancer hospitals and the outdated equipment of law enforcement agencies with reconnaissance (detection), surveillance and protection against radiation, chemical and biological hazards require their re-equipment with modern means.
- Serious development of e-commerce in Uzbekistan has occurred in recent years.
- The country is actively implementing digital technologies and implementing measures to develop e-commerce, electronic document management, online sales and purchases, which requires certain security standards, protection of personal data and security from cyber attacks.

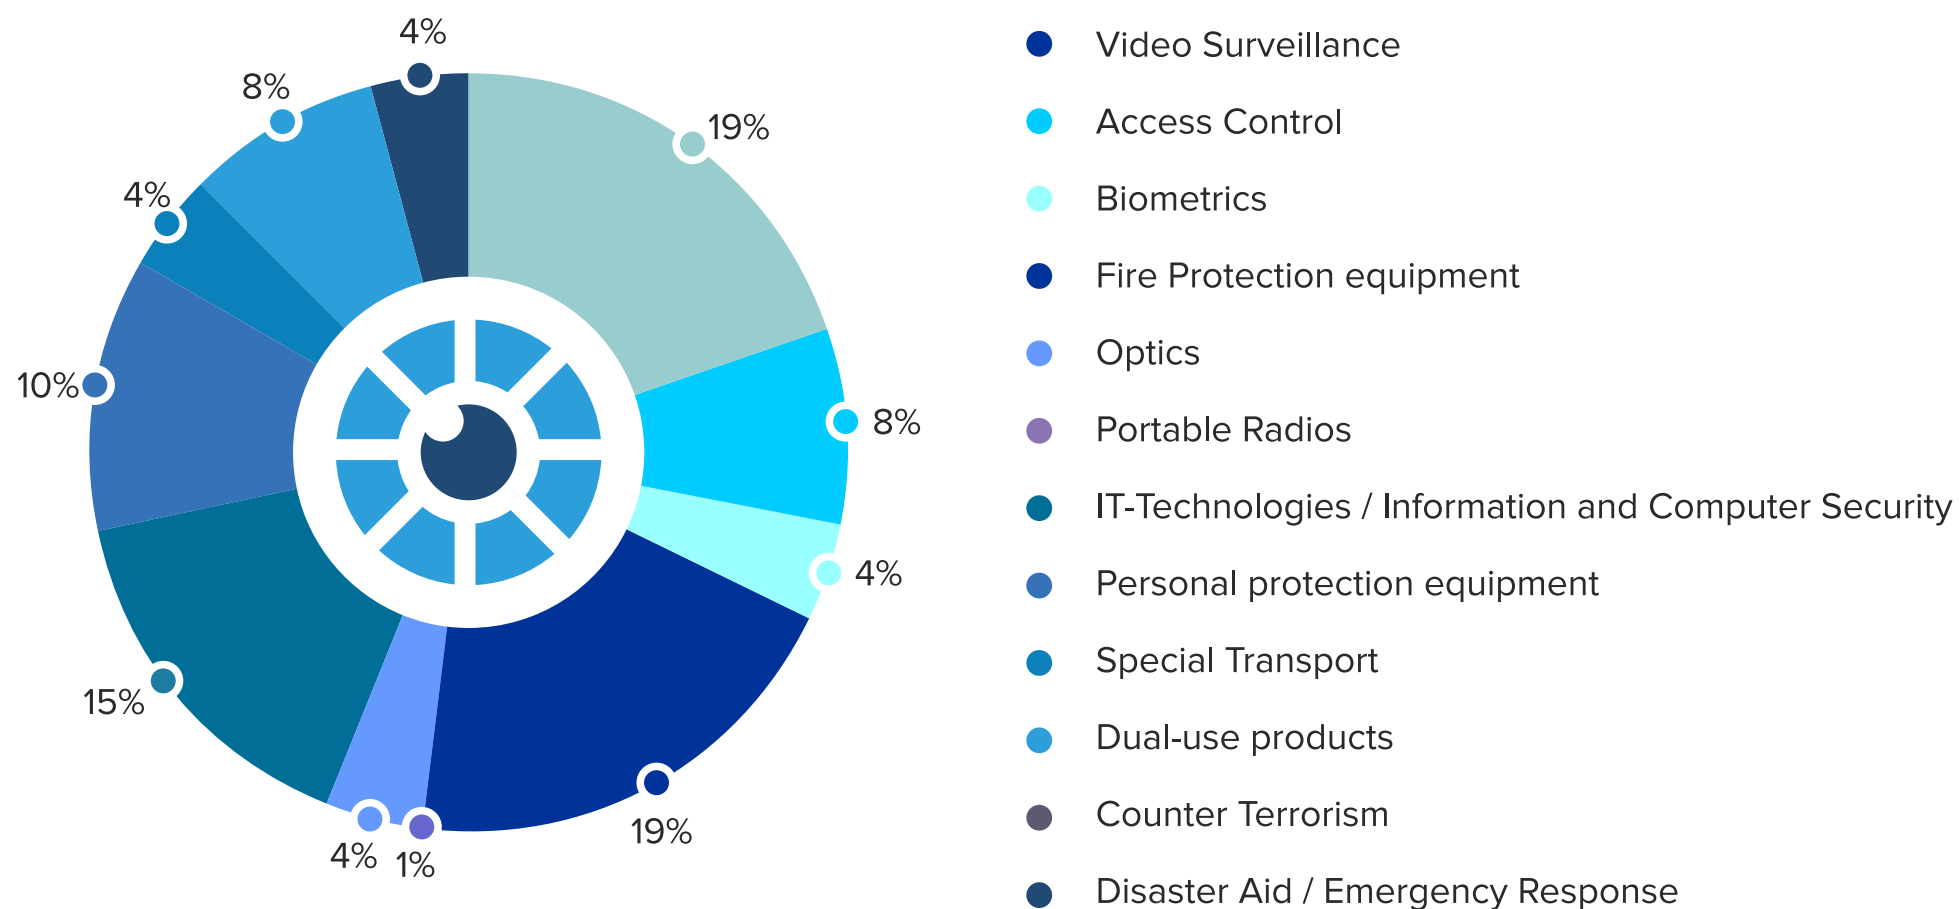

Statistics on the Participants:

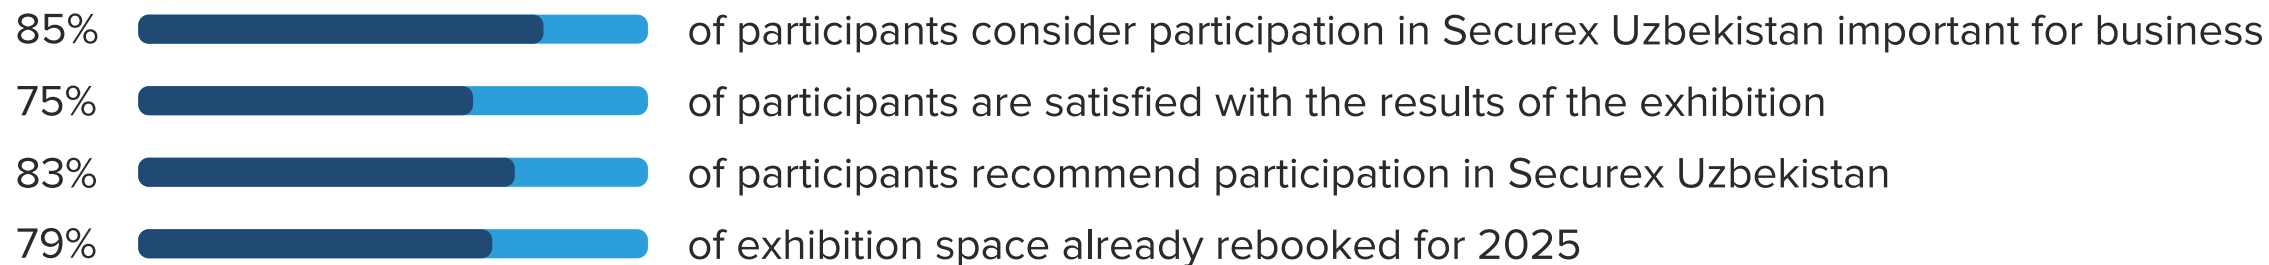

66% – Regular Participants, **34%** – Debutants

Have you concluded any contracts or agreements at the exhibition?

BREAKDOWN OF EXHIBITORS BY SECTORS

VISITOR STATISTICS

In 2024, the exhibition was visited by **5 806** professionals including foreign visitors from the following **25** countries:

Afghanistan

Azerbaijan

Bangladesh

Belarus

Bulgaria

China

Georgia

Germany

Iran

Kazakhstan

Korea

Kyrgyzstan

Latvia

Lithuania

Malaysia

Nigeria

Pakistan

Romania

Russian Federation

Switzerland

Taiwan

Tajikistan

Türkiye

Turkmenistan

Ukraine

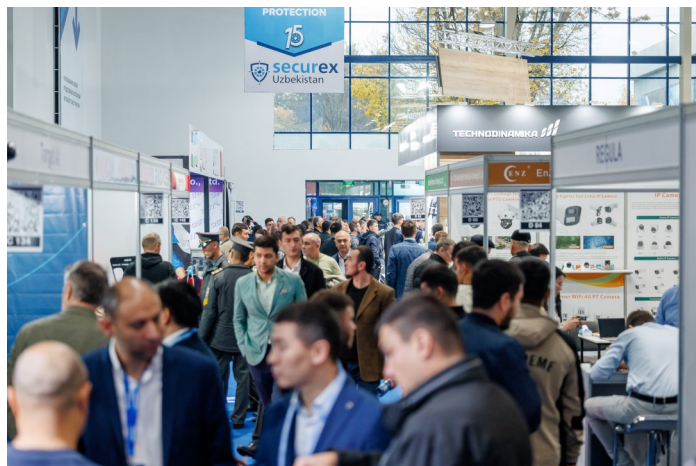

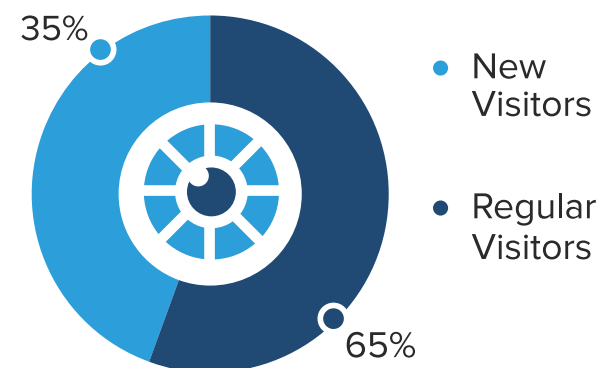

United Arab Emirates

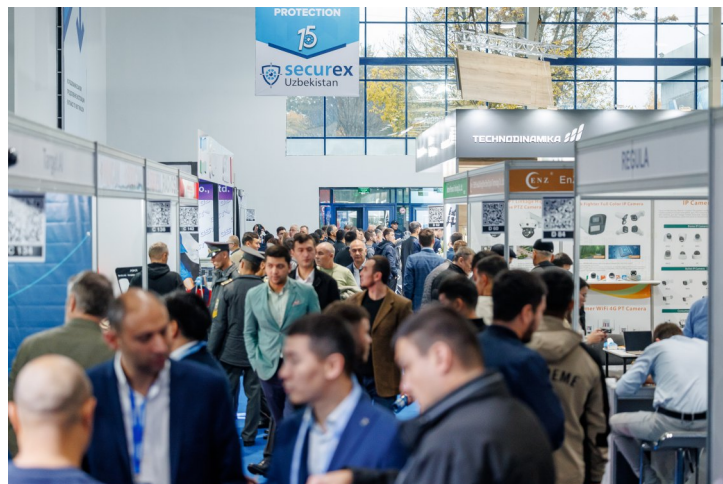

Top 6 countries by number of visitors:

Russia, China, Kazakhstan, Turkmenistan, Kyrgyzstan, Turkiye.

According to the survey, **90%** of visitors confirm the importance of the exhibition for studying the market potentials and trends, acquiring the latest technologies for the production of highly competitive products.
